Re: MB Docket No. 04-233

Dear Ms. Dortch:

I have been involved with Quiz Bowl with KTIV for many years and find them very supportive of providing program for the area high school students.

The station and the crew have been very encouraging to the students by providing them a comfortable atmosphere in which to work as well as giving them pats on the back for being participants in the Quiz Bowl program. When the students appear on TV the crew does everything possible to make the kids feel less anxious about being in the studio.

The station has aired many activities of the area through their program, "Around Siouland" providing information by interviewing persons involved the activity being featured and giving needed information.

The have also participated in the Monona County Fair in a variety of ways as well as other TV and radio stations from Sioux City.

The Sioux City stations air news stories concerning issues of importance to our area and the importance of those issues in a fair manner trying to present both sides if at all possible to make connections with parties involved.

The stations provide outstanding coverage of a natural disaster or other emergencies, alerting many and saving lives.

The station covered debates among candidates for elective office, educating voters about the issues of the Siouland area..

The station aired periodic interviews with local candidates to ensure an informed electorate of the Siouland area.

The station regularly airs PSAs concerning issues of importance to the entire Siouland area. I have worked with them providing PSAs developed by students in the area to help reduce the instances of young people drinking and driving.

I would advise that the FCC does not need any additional federal regulation of local stations.

Respectfully submitted,

*Jean L. Petersen*
